Creusen Powerline products are known for their quality, durability and reliability. This series of grinding and polishing machines is mainly used by professionals in the construction industry, workshops, garages and painting firms.

The machines in the Creusen Powerline range are very powerful. Whilst retaining one or both grinding functions, these double grinding machines can be extended by adding many accessories for various applications. The grinding and polishing machines comply with many international standards and have a strikingly modern and recognisable design.

The double grinding machines offer plenty of power and low-vibration operation.

# Creusen Powerline Double grinder low speed

The DS 7500TS model is a machine with a low rpm rate, which makes it particularly suitable for the woodworking sector. A low-vibration machine for grinding all sorts of hard metal tools, such as chisels and gouges. The machine is fitted with two wide aluminium oxide grinding wheels, grit 100 and 60.

## Features

- Dutch quality product
- versatile
- perfectly balanced
- low-vibration running
- low noise level
- suitable for assembling on pedestal
- 5 year warranty

Dutch quality product

Switch with no-volt release and emergency stop

Extension shaft for right-hand side of DS 9200 and DS 9250, distance between flanges 60 mm

Conical spindle for right-hand side of DS 9200 and DS 9250

Steel-wire brush fitted inside wheel guard to replace grinding wheel

Grinding wheels easily accessible

Cast iron grinding support  
High closed protective cover for optimum safety

Extremely suitable for assembling on pedestal AK 9000HD with integrated extraction

A second connection point is fitted as standard at the back of the machine base for mounting on pedestal AK 9000HD

Dust extractor connection on both sides, ø 50 mm

Pedestal universal K 9000HD thick walled steelplate, 4 mm

5 year warranty

Industrial

## AK 9000HD

Voltage: 400/230V 3~ 50-60 Hz

art. 007425

Power: 180 W

Speed: 2800-3400 rpm

## K 9000

art. 007436

## AK 9000HD

rear view

Voltage: 400/230 V 3~

art. 007425

Power: 180 W

Speed: 2800-3400 rpm

- Height 85 cm
  - Thick walled steelplate (4 mm)
  - With integrated dust extraction
- 400/230V 3~
- Machines are supplied as standard without a pedestal

### Key to codes

- AK** pedestal with integrated dust extraction
- K** pedestal
- 9000** series 9000
- HD** heavy duty

## Features

- Dutch quality product
- thick walled steelplate (4 mm)
- stable
- extractor motor integrated
- suitable for all three-phase Creusen Industrial grinders series 9000
- machine and dust extractor operated by single switch with no-volt release
- motor, fan, dust extractor and dust collector integrated in pedestal
- extractor unit fitted with radial fan
- 5 year warranty
